To Whom It May Concern,

Our family has been impressed by the immediate change that occurred when the state of Indiana passed the "Do Not Call" law. Prior to the passage of the law our evenings were spent picking up phone Spam that had no value and was irritably intrusive.

Please do not jeopardize a good thing. It is rare that government action has an immediate impact on our lives and this is one happy exception.

Thank you for thinking of the right issue but don't make what works less effective.

Sincerely,

Jack Wittman
Bloomington, Indiana
